Pixera Introduces the PMC 4000 PTZ Camera System for Extreme Outdoor Surveillance

**A Robust Outdoor Surveillance PTZ Color Camera System,
Capable of Very Low Light Sensitivity, 0.01lux with F1.2 Aperture and
Transmissions up to 1.2miles (2km) with Single Coaxial Cable.**

Pixera Corporation, Los Gatos, CA, USA - February 1 2001

Pixera Corporation, a premier developer of high-resolution digital and innovative analog & digital cameras is introducing its latest camera system, PMC 4000, a Robust and Sophisticated Outdoor Surveillance PTZ Color Camera System, capable of Very Low Light Sensitivity, 0.01lux with F1.2 aperture and Transmissions via coaxial cable up to 1.2 miles (2km).

We believe that the PMC 4000 Camera System from Pixera is the ultimate solution for operators with large installations and surveillance needs in very remote locations, such as Power Generating Plants with Sub Stations, Dam's, Water Locks, Airports, Processing Industries such as Refineries, Transportation, etc., by performing night and day in virtually any weather condition, said Yuji Ide, Pixera CEO.

The PMC 4000 Camera System consist of the PMC 4000 Camera Unit and PRC 4000 Remote Control, which represent one of the toughest and most sophisticated Outdoor Surveillance PTZ Camera Systems available in the North American market today.

Special performance highlights are, Low Light Sensitivity Capabilities in Color, minimum 0.01lux with an F1.2 aperture, High Quality Video with a 410.000 pixel CCD Image Sensor, a 16x optical Zoom, up to 100 preset high-precision PTZ positions, Auto Scanning, High Speed Pan-Tilt, with maximum pan at 180°/sec., and maximum tilt at 60°/sec., Transmissions up to 1,24 miles (2km), Defroster/Defogger, Window Wiper, Dust Proof, Wind Poof and a Water Splash Proof Construction. The operators of this system can link up to 4 cameras per remote control and up to 32 cameras in total, using cascade connections with 8 remote controls.
